

Oxygen would like to invite you to join the team at

**Post-Expo '09**  
**29th, 30th September and 1st October 2009**  
**Hannover, Germany**

We would be delighted to update you on our latest developments and give you the chance to **Test and Ride** our 100% electric **CargoScooter**, the electric vehicle that has generated a great and tangible interest amongst all the main European Postal Organization, where it is already in use.

Don't lose the opportunity to come and visit our bright and colorful **Stand (n. 5000)** right next to the main entrance, where our team will welcome you and introduce you to the Oxygen world of CargoScooter: a unique vehicle born out of the expertise of the finest Italian engineers and developed through experience with leading European companies to provide a revolutionary solution to logistics and mobility.

Everyone wishing to ride to the future, will have the chance to **Test and Drive the CargoScooter** at our **Corner** on the **Zero Emission vehicle zone**, just outside the main entrance pavilion. Our experienced technicians will guide through every phase of the test while our engineers will explain the technology behind the CargoScooter amazing performances and design.

On **Wednesday 30th of September at 12.30** Oxygen will introduce you to the world of Zero Emission Vehicles during the **Conference**

**“Postal Organizations as main actors of urban life improvement:  
the electric ride”**

It would be a real pleasure for us to meet you in this special occasion and receive your input on our electric vehicles and share our approaches to the delivery industry.

Please let us know if we can provide any more details about Oxygen and about our product at Post EXPO '09.

We do thank you for your attention and look forward to seeing you at Post-Expo in Hannover.

Yours sincerely,

Antonio Croppo  
CEO

Christian Baio  
Sales and Marketing Director
